Ukrainians trust foreigners more than their own eyes. Long ago they would have stopped fighting within themselves and then there would have been peace throughout the world. I express my personal opinion and I am sure that not everyone will agree with it, especially those who write sympathy comments. Russia will not attack Ukraine. It would be like doing a favor to the US, because Ukraine is a tool of manipulation. Russia wants peace with its neighbors, but does not want the West to dictate its terms of life on our own territory.

I can understand your feelings and concerns for your life and your Country's freedom. However, I would be really cautious listening to the western propaganda: Biden was showing the time and day of the invasion and so all the main newspaper close to him. Don't you think that it is surreal? Neither I want to defend Mr. Putin, however we cannot not to take into considerations that NATO is a military organisation and during the last years has been expanding (or trying to do it) its presence around Russia. I trust that the true diplomacy, the one that always works for keeping peace, will be able to find a solution stopping Biden from trying to create a war and Mr. Putin to not interfere in Ukraine.
