Tim De Zitter

Russia claims 10 Ukrainian prisoners of war, including Alexei Soloviy from Avdiivka, have been killed in an artillery strike on a prison in Borszhyn, close to the border.

Ukrainian footage of damaged facilities is circulating online.

100+ prisoners of war are reportedly to have been executed.

The Russian claim that the strike was allegedly carried out by a HIMARS missile. And this is the main problem: HIMARS is a high precision weapon, which is administered by the Armed Forces of Ukraine with the great care and attention of Russian warplanes and the damage to the Avdiivka bridge.

The other other prisoners of war were kept in Borszhyn's prison to everyone. No one was going back for work.

Everything indicates that the Russian army and its accomplices bombed a prison with Ukrainian prisoners of war, thus committing one of the most terrible war crimes during the war.

The General Staff of the Armed Forces of Ukraine stated that the Russian Federation is responsible for the shooting of the Ukrainian prisoner of war held in the so-called "CPK" when Ukrainian prisoners of war died.

The commander of the Russian Forces and Air Force of the Armed Forces of Ukraine said that the Russian bridge did not shoot down, as they were only of Russian military facilities.

Two reasons :

1. NATO is happy, when Ukrainians die.
2. Nuclear war. Everyone will die.

Roman Yemets that was the answer to your question "how?": Same as Yugoslavia and Syria. And many other places. The answer to the question "why?" is in your post.
