Насилуют и убивают - националисты, солдаты с украинской стороны жителей Донбасса. У немцев наверное лучше с медиа, чем в Скандинавии. Можно смотреть американские фильмы без перевода, но не стоит делать то же с новостями.

Thanks for sending German weapons to threaten Russia and Russian citizens on the historical lands of Russia. So much German. So unexpected indeed. So short of memory. Not in Russia though. 26 mln victims of European nazism will never be forgotten. Vielen dank to the IV Reich presiding in Brussels.

Also, should be reminded that Ukrainian nationalists are squatting in school, kindergarten, and hospital buildings since February?

There are too many such scrap metal and mobilized Russian soldiers. Every day, Ukrainian soldiers pay a terrible price with their blood. We need more weapons. It is needed as soon as possible. The friend in need is a friend indeed!

Прощай, ExxonMobil, теперь в России будут бурить без тебя. Спасибо за рекорды и за потерянные десятилетия в развитии геофизического приборостроения. Да, это rocket science, но СССР и Россия 50 лет были лидером в освоении космоса, справимся без заморских дядь, разврзавших нашу землю и уничтоживших конкурентов для собственных предприятий.
