Гуманность по отношению к военнопленным. В России ее проявляют в полной мере. У солдат и офицеров ВСУ, сложивших оружие, сегодня нормальные условия жизни. Раненые получают всю необходимую медицинскую помощь. В Крыму с украинскими военными встретился уполномоченный по правам человека в нашей стране Татьяна Москалькова: <https://www.1tv.ru/n/425438>

UAE Deputy Economy Minister Abdullah Ahmed Mohamed Saleh Al Saleh announced the country's intention to invest in Russian high-tech companies, open their representative offices, develop partnerships in the field of space, medicine, green energy, October 21, 2022.

While some governments invest in development, other governments invest in wars and propaganda. On October 12, a new National Security Strategy of the United States was published. While the Russian government continues to call the Western government "partners," the U.S. declares Russia a target for destruction under the slogans about democracy.

Russia's policy is to preserve its sovereignty and its own interests. I have not heard the president threaten the United States or Europe in any of his direct speeches. To be honest, Russians in general don't care what happens on the other continent. 50% of Russians have never been to the USA and never will. People care about their own problems. So why are Americans being indoctrinated into some kind of aggression against American people? Can anyone explain to me how the Russians oppress the American people and attack the US democracy?

Also, the White House writes that the United States respects the Russian people and their contributions to science, culture and constructive bilateral relations. This is not true, it has a racist policy towards the Russian people. My 5-year US business visa expired in February 2022. In January I wanted to prolong it at any of the US consulates in Germany where I was working at the time. The U.S. consulate accepted the \$160, but at the application stage I indicated that my nationality was Russian, and access to the application was denied because Russia was on the list of banned countries. This was in January 2022.

That \$160 was added to my personal savings in U.S. stocks blocked by the US Government, which leads me to believe that I have been ripped off twice because of my nationality. But that's okay, I will contribute to the economy of the Middle East, Russia, and other countries open to entry.

Russia has developed in recent years in spite of sanctions. Very few countries show economic development under sanctions. Despite the ban on free trade and the choice of trading partners in the West, I am confident that Russian businessmen will continue to develop international business and the country's economy.

If I was born in Ukraine I would give Russia not 20% but 50% of Ukraine because these people have a right to these lands just like I would have. The only reason Ukraine is fighting is because NATO, Germany France UK and US are paying the poor Ukrainians to die fighting against their brothers.

It's a similar ugly calculation as the Atlantic Slave Trade and colonialism in Africa.

People who have lived for eight years under fire don't care about the EU recognition. True democracy recognizes referendums. Everyone else - walk away. Welcome home RU
