Hey guys!

It's been a while since I posted here - and the most recent topic was about Cisco who suspended operations in Russia, so we have got an idea to find a new job because of that fact.

The post was good and gained more than 60k+ views and a lot of different comments. Not all of them were nice (lots of russofobia and cancel culture issues), but the bad authors were banned immediately by me personally. LinkedIn is not a place for such things - it is a professional community and that's it - wanna chat, go to Reddit.

The reason why I write the new post here - is because I'd like to say huge thank you to everyone who helped us, shared contacts and supported our intention to find a new cool place to work - it works and you are a real professionals who belong in here.

Thanks, guys - you are awesome!
