Please stop spreading the hysteria influenced by the media, only the training building was hit. Russian army is acting very carefully and sends their best troops to perform operations on nuclear plants. There are claims of Ukrainian soldiers being inside that building and it was actually them setting up the fire to the building after fleeing.

I meant that I would like to see the source of information confirming the allegations about Ukrainian troops being inside the facility.

There are no doubts of nazi presence in Ukraine. You can watch this show discussing it <https://www.youtube.com/watch?v=KfaAyIP8Wuc> Seems like some people don't like the truth to be heard as my previous comment was blocked...
