This is a critical moment in the war in Ukraine. Europe must deliver on its promises of support and match rhetoric with action. A combination of tight sanctions and sustained military aid is needed to bring Putin's unprovoked and brutal invasion of Ukraine to an end <https://virg.in/oHYT>

Unprovoked??? I don't think so. Putin has been warning NATO for at least eight years to back off from his borders. But oh no, NATO had to go in and provoke Putin by cozying up to Ukraine. Are we forgetting that Ukraine was deemed the most corrupt European Nation? AND how fast have we forgotten about Hunter Biden's corrupt and odd position in the corporate world in the Ukraine. How is it that as soon as the global leaders withdrew there obsession over Covid and we globally protested our governments' over their over reach of their draconian lockdowns, seconds later the exact same global leaders demand that we all agree Putin is bad and Ukraine...good. It was like watching the madness of the masses move as one, the world just fell for the leaders lies again without question...it was the Truman Show live in living color. Oh well, now that I gave my honest opinion, I guess I won't hear from Sir Branson. Cheers everyone and have a blessed day 🙏
