Комплекс неполноценности/страх к чужому альфа самцу -думаю, это и есть животные корни русофобии, как внутренней, так и внешней.

Radik Zakirov русофобия стала оружием с тех пор, как Россия стала расширяться - со времён Ивана III. Тогда правители европейского полуострова испугались. Вспомните европейские карикатуры перед началом Крымской войны - русских подготовительно обезчеловечивали. Сейчас то же и в западно-управляемых СМИ: англосаксы ненавидят Россию как антипода

Russia is not a party to the Rome Statute of the International Criminal Court and has no obligations under it. Russia does not cooperate with this body, and possible "recipes" for arrest coming from the International Court of Justice will be legally null and void for Russia. The main function of the ICC is to create the appearance of legality to the actions of bandits, pirates and other predators. The wolf said to the sheep: you are guilty only of the fact that I want to eat. A rat should have enough intelligence not to quarrel with a bear. The bear is not a Nutcracker. Let ICC shove their warrant in a place that never sees the sun.

What could be higher than such a sacrifice when a Father sends his Son to a holy Battle?

The newly invented Russophobic and human-hating LxxxBT++
"mathematics" predictably does not work. Use the traditional
human mathematical apparatus for financial modeling, so as
not to take risks!
