There has been a war in Yemen since 2014, and America plays an important role there, helping to kill civilians. Where are your angry cries? Or the fact that England took the islands from Argentina and appropriated them to itself. Or is it different? Propaganda works well for you. Ukraine was made meat for the sake of the West, which the Ukrainians themselves and other residents living in the east are savages. And it is good for the West when the Slavs kill each other.
