Leaked videotape dating back to January 2017:

Two US senators us (Lindsey Graham and John McCain), and the then Ukrainian President Petro Poroshenko ua, met with Ukrainian soldiers in early January, 2017.

The two senators told the soldiers that "2017 will be the year of offense(....)

It's time for (the Russians) ru to pay the price". Graham told the soldiers "the 36th Separate Marine Brigade in the town of Shyrokyne, about four kilometers from the line of contact".

This tape reveals that a Ukrainian attack against Russia with the support of the United States was planned to start in 2017, because Hillary Clinton was expected to win the American presidential elections. But Trump's win postponed that until the Democrats returned to the White House through John Biden.

It was always unclear for me why would Ukrainians subject themselves to all those terrible consequences of being a mere USA's tool against Russia. You're just a tool, don't blame anyone for choosing this role. Ukrainians could easily stop this long time ago by just showing the middle finger to western warmongers

In this video, Julian Assange explains that the West is in search of constant war. The video was released in 2019. Assange argues that the West has been engaged in a perpetual state of war since the end of the Cold War. He says that the West has used its military power to intervene in countries all over the world, and that these interventions have often led to violence and instability. Assange argues that the West's obsession with war is a threat to peace and security, and that it needs to change its foreign policy.

He argues that the West's military-industrial complex profits from war, and that this profit motive is a major factor in the West's willingness to go to war. He also argues that the West's banks and corporations benefit from war, as they are able to make money by lending money to governments and by investing in companies that supply the military.

Are you sure, you are living in a free world? Do you really know the meaning of the word "free"? I don't think so.
